

# Loop 900™

User guide

The LOOP900™ exclusively incorporates a sleek patent pending mechanism that finally allows users to set the string gap, so critical in looping performance. Adjustments are made by the use of a key which is simply inserted into the side of the yo-yo and turned to register a precise gap bringing a new era of increased control and performance.

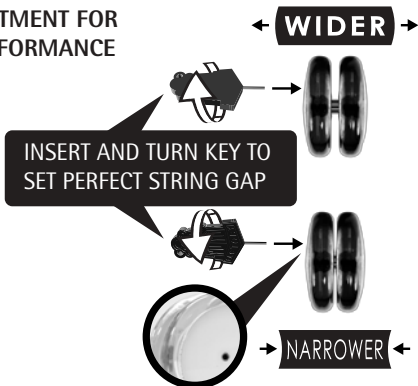

The ultimate for looping performance!

Real champions use YoYoFactory®

**⚠ WARNING:**  
CHOKING HAZARD - Small parts.  
Not for children under 3 yrs.

**PRECISE ADJUSTMENT FOR  
PRECISION PERFORMANCE**

*Works best with 50/50 type 6 string.  
Avoid using 100% polyester string.*

If **Loop900™** hesitates while performing *Loop the Loop*, open **Loop900™** and add two drops of **YoYoFactory®** performance oil directly to the side of bearing.

*Use YoYoFactory®  
brand performance oil*
